MAP QUESTION

Where are the synthetic cocoa farm training plots in relation to districts, major roads, towns and mapped 2021–2024 forest loss?

Synthetic training farms — not real farmer data. Diamond markers exaggerate plot locations for visibility.
Sources: OCHA COD-AB; © OpenStreetMap contributors (ODbL); Hansen/UMD/Google/USGS/NASA. Forest loss is a relative indicator, not a deforestation verdict.
CRS: WGS 84 / UTM zone 30N (EPSG:32630) | Author: Edmund Dogbe | 26 Oct 2026
